

Introducing Green Buildings & LEED™ to Contractors

Attention Contractors!

- Do you know how to get involved in a LEED™ project?
- Do you know how your involvement with LEED™ is contractually structured?
- Which LEED™ credit points will you be responsible for?
- How should LEED™ issues be addressed and documented?
- Did you know the #1 barrier to high performance buildings in BC is lack of industry knowledge, especially among contractors?

Canada	Conseil
Green	du bâtiment
Building	durable
Council	du Canada

Sponsored by the Canada Green Building Council and the Greater Vancouver Regional District, this seminar will present an overview of the LEED™ requirements from the contractor's perspective, then delve into the practical details of how project managers and site superintendents can navigate the LEED™ process to successfully deliver a LEED™ project.

Presenters will share their experiences on LEED™ projects including lessons learned, overcoming common challenges and documentation requirements. Attendees will receive an accompanying guide, *Green Construction: Introducing Green Buildings & LEED™ to Contractors*.

Date: Wednesday, August 25th, 2004

Time: 4:00 – 6:30 p.m.

Location: UBC Robson Square
800 Robson Street, Vancouver

Cost: CaGBC and USGBC Members - \$50; Non-Members - \$75

Snacks will be provided

To register, contact Sharon Lisette at Sharon.Lisette@keen.ca. Please make cheques payable to the CaGBC- BC Chapter (payment accepted at the door).
