

## Countries ranked by Wellbeing Index

The Wellbeing Index (WI) is the point on the Barometer of Sustainability where the Human Wellbeing Index (HWI) and Ecosystem Wellbeing Index (EWI) intersect. It is expressed here as the average of the HWI and the EWI. Sustainability would be an average of 81.0 or higher. *Countries in italics were rated on less than two-thirds of the human or ecosystem subelements (indicator groups).*

		WI	HWI	EWI			WI	HWI	EWI			WI	HWI	EWI
1	Sweden	64.0	79	49	62	Samoa	46.5	43	50	123	Angola	37.5	8	67
2	Finland	62.5	81	44	63	Nepal	46.0	28	64	124	Madagascar	37.0	24	50
